

TOSHIBA

FRESHNESS MATTERS.

REFRIGERATOR

REFRIGERATOR

ADVANCED TECHNOLOGIES

PAIR
LURE

The newly developed purification technology, which can sterilize and deodorize actively in the fridge and freezer.

Active Purification System

Actively release electric ion components in electricity to achieve sterilization and deodorization to every corner. Even ingredients in the corners of the refrigerator are safe to eat without fear of bacterial invasions.

Comprehensive Purification System

PureAIR eliminates odors in the fridge and freezer. Vegetables and meat can be stored safely. Seafood sashimi usually contains some bacteria, so freezing it in the refrigerator will enhance the fresh taste and kill the bacteria.

Efficient Purification System

PureAIR, with the PLASMA module, produces ions that can neutralize the trimethylamine odor in seafood and kill staphylococcus aureus and E.coli in food.

- Sterilization rate 99.99%+
- Deodorization rate 99%+

Fast Purification System

Within 60 minutes, the deodorizing rate of PureAIR can reach 99% in the entire space. Active purification is completed every hour, so there is no need to worry about odor build-up.

Durable Purification System

The authoritative institution has performed the life test of deodorizing and sterilizing devices. The experimental result shows that PureAIR has a service life of 16 years. During this period, the odor-eliminating effect does not deteriorate, saving money and further protecting the environment by eliminating the need for replacement.

Pure BIO

Toshiba **TMF Pure BIO** is made of honeycomb ceramics, which is plated with Ag+ ion catalyst. The sterilization and deodorization rate is up to **99.9%***.

TOSHIBA

Origin Fresh

OriginFRESH™ Fish & Meat

HydroFRESH Fruits & Vegetables
Stable, even and optimal humidity.

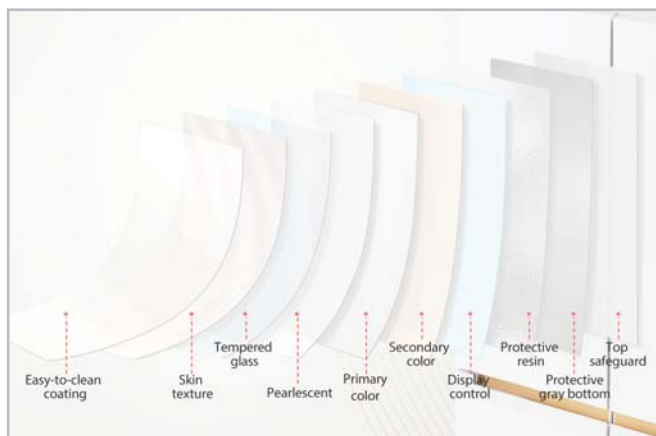

60-min Quick Ice Making

Japandi Style

Functionality

535L large capacity; well-organized storage.

Aesthetics

Fuji white 10-layer panel; walnut handles.

Minimalism

600mm seamless fits into cabinets.

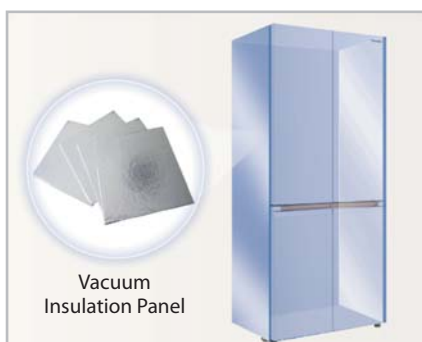

Coziness

Human-centric lighting.

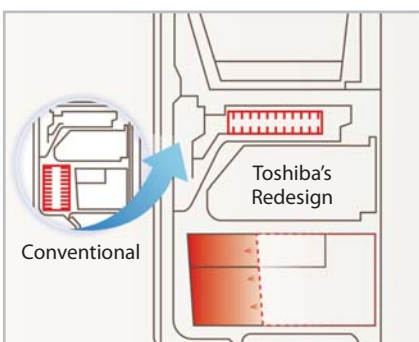

Enjoy More Space with Toshiba's Innovations

New Vacuum Insulation Materials

Due to Japan's advanced foaming technology, it insulates 10 times better than polyurethane foam despite being 1/3 as thick.

New Cooling System Design

With the innovative horizontal evaporator, the freezer is deeper and the refrigerator has more room inside.

Heat Spreads from Front Bottom

Larger storage space was achieved by saving 100mm on each side's breadth.

TOSHIBA

SMART CONNECTION

REMOTE CONTROL

The temperature and operation mode of the refrigerator can be controlled remotely on the APP.

- Adjust temperature
- Super cooling
- Super freezing
- Auto mode

FOOD MANAGEMENT

TOSHIBA's food management feature allows you to monitor the freshness of your food at all times. Organize your food regularly to prevent waste.

FRESH DRINK

Put drinks into the freezer zone, and the app will send reminder when the drinks are chilled.

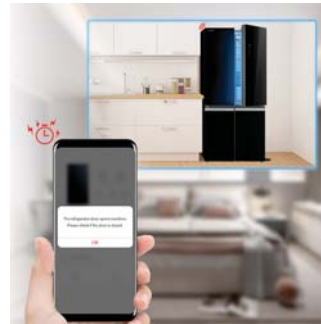

ENERGY CONSUMPTION

Automatic statistics of weekly, monthly, and annual power consumption so that the user is always aware of the refrigerator's power consumption and provides energy-saving tips according to the refrigerator's habits.

ENERGY MODE

Turn on Energy Mode at the time you set to automatically adjust your refrigerator's temperature and defrost time, which can help you save energy and electric charge.

REMOTE CO OPEN-DOOR ALARM

Send reminder when the refrigerator is not closed properly.

HOME AWAY MODE

Send reminder if the refrigerator is opened accidentally.

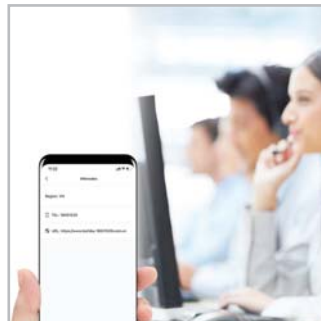

FAMILY CARE

Check the refrigerator's opening record by family members. Send a reminder if the refrigerator has not been opened during the setting time.

OTA UPGRADE

Delivering sustainable and scalable IoT services.

AFTER-SALES

The user can call the after-sales by one click, and check the common FAQ, user manual on the APP.

- After-sales
- FAQ information
- E-manual

AI DIAGNOSIS

The refrigerator can actively perform self-tests for abnormalities, analyse faults and fix them with a single click, helping users to solve problems faster and more effectively.

Download the app & activate product today!

AUTO ICE MAKER

There is an independent ice-making machine built in the refrigerator, which can achieve 1.2kg /24H of rapid ice-making, to meet the needs of family ice demand.

MOISTURE ZONE

The Moisture Zone has better sealing performance and maintains an average humidity of 86%, keeping fruits and vegetables fresh and nutritious for longer.

BIG FRUIT&VEG BOX

The large capacity box provides enough space for the whole family to store fruits and vegetables.

ORIGIN INVERTER

Inverter compressor and inverter fan have the advantages of energy saving, lower noise and auto-adjusting cooling.

FLEXIBLE ZONE

3 modes can be switched in FLEXIBLE ZONE:

- Fruit/Vegetable
- Drinks
- Chilled meat/fish

REVERSIBLE FREEZER DRAWER

The reversible freezer drawer can combine the two layers of space into one, to improve space utilization.

EXTERIOR DISPLAY

Electronic controls on the door, which can be operated without opening the refrigerator. More convenience and energy efficient.

ENERGY SAVING

TOSHIBA is committed to providing customers with the best energy solutions.

TOSHIBA

Smart Sensor

The sensors can detect even small changes in temperature and adjust the cooling system accordingly to maintain a stable temperature. This helps to keep food fresh for a longer period of time and prevent spoilage.

Surrounding Cooling

The cold air blowing out from the back of the refrigerator and forming a circular airflow, which evenly sends the cold air to every corner, ensuring the freshness of food.

TOSHIBA

SIDE-BY-SIDE

3 in 1 Auto Ice Maker

Automatic Ice & Water Dispenser with 3 modes: Ice Water, Cubed Ice and Crushed Ice, meet your different needs anytime.

Dual Alloy Cooling

Compared with plastic, metal has a good performance of keeping cold temperature, because of its better thermal conductivity.

External Display

The temperature of the fridge can be adjusted accurately with the digital panel. Multiple convenient functions will avoid cooling loss and make your life easier.

Free Position

Boxes can be easily pulled out when the door is open at 90°. Easy to place the refrigerator against the wall and freely placed in any corner of the house.

TWO DOOR

BOTTOM MOUNTED FREEZER

TOSHIBA

Easy-Tap Water Dispenser

Tap on the panel to get cooled water without opening the door.

One-piece metallic appearance style design, extremely elegant and durable.

Safe design with child lock.

- Upgraded water tank with laser dull polish tech, high quality and durable.
- Water tank can be removed easily, more convenient for cleaning.
- BPA free, safely drinking.

FLEX-ZONE

FLEX-ZONE creates a lower temperature ($-1-0^{\circ}\text{C}$) compartment in fridge special for meat preservation. No need to defrost, easy to cut when cooking. Reduces flavor changing and nutrition loss.

Origin Inverter

Both the compressor and fans are inverter. The inverter fan automatically adjusts speed in **4** levels.

- High Speed: speed up and cool down quickly
- Low Speed: Energy saving by **17%***

Pure BIO

Toshiba **Pure BIO** is made of honeycomb ceramics, which is plated with Ag⁺ ion catalyst. The sterilization and deodorization rate is up to **99.9%***.

Mega Ice

Bigger ice blocks, better daily use.

Folder Shelf

The glass shelf on the top is arranged with a foldable design to suitable for some tall items.

Japanese Weave Design

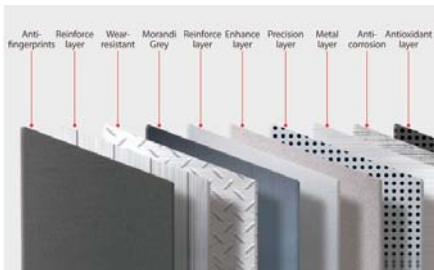

Handle integrates exquisite Japanese weave design

- Integration with Japanese appearance
- Resistance to scratching
- Diamond cutting technology with bottle-framed shape

Morandi Gray

The 10-layer panel is made with different functions leading to anti-scratch and anti-fingerprints.

Utility Box

Independent cosmetics storage space, and unique high bottle design satisfies the storage of large bottles of cosmetics.

Electronic Control

One-key electronic temperature control achieves convenient touch control and precise temperature control, and Super Cool function ensures rapid cooling in a short time.

ONE DOOR

TOSHIBA

Counter-Balanced Hinge

Door can be opened and stay at different angles from 45°, 60° to 75°.

Thicker Forming Zone

Ensures a more stable cooling temperature.

Defrosting System

Defrosting water will be discharged through the special design drain system, prevent the defrosting water drops on food.

Frozen Zone

Independent frozen compartment separated from fridge zone, the temperature adjustment of -10~-4°C providing the optimum preservation condition. You can set the fridge to whatever temperature suits you most.

Katana Shaped Handle

The Samurai Katana shaped draw handle inherits Japanese craftsmanship and aesthetics.

HIPS Inner Tank

The interior of the tank is made of HIPS, which is a food-grade environmental material. Therefore, food can be placed directly into the tank, making the refrigerator practical and safe for your family.

Convenient Handle

The handles is not only hidden and beautiful but also ensure that the user can open it effortlessly.

Satin Grey

The satin grey surface makes your home elegant and tasteful. Delicately shiny and easy to clean.

Adjustable Fridge Legs

Suitable for different situations.

Reversible Door

Fits different situations and hand preferences.

CHEST FREEZER

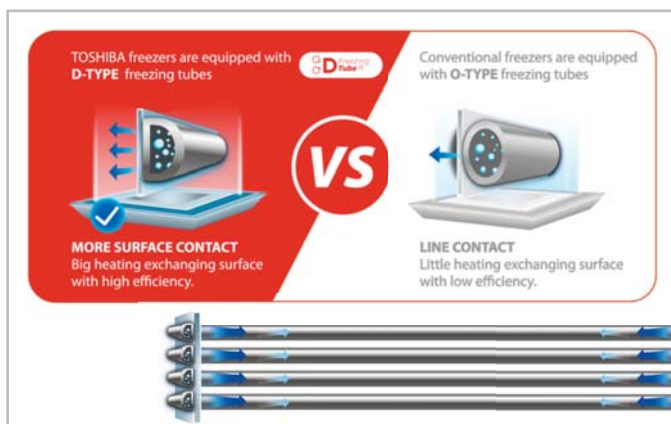

Full Temperature Zone

From -30°C to 10°C, electronic control to adjust each degree. Fruits, vegetables, fish and meat etc., satisfy storage standards for different food.

2 in 1 Chest Freezer

Easy to use and adjust for both cooling and freezing -30°C ~ 10°C.

D Freezing Tube

Toshiba freezers are equipped with D-TYPE freezing tubes. By heating exchanging surface with high efficiency. More energy conservation, quick freezing, uniform freezing, and fresh nutrition.

Over Temperature Alarm

Electronic control with over temperature alarm to guard food safety.

Counter-Balanced Hinge

Door can be opened and stay at different angles from 45°, 60° to 75°.

Single-piece Door Cover Without Edge

Single-piece door cover without edge. Body made of single shaped metal sheet with no joins. Advanced and elegant appearance is suitable for various home environments, and can fit in any room.

Quiet & Slim Hinge

- Ultra slim design
- Self-lubrication
- No abrasion noise

White Inner

LED Light

- Energy Saving
- ECO
- Soft & Bright

Handle

Easy to pull, no pressure.
