NOTE

BEFORE OPERATING THIS PRODUCT, READ, UNDERSTAND, AND FOLLOW THESE INSTRUCTIONS.BE SURE TO SAVE THIS BOOKLIST FOR FUTURE REFERENCE

IMPORTANT SAFETY INSTRUCTIONS

- (a). The performance parameters in the table are measured before delivery and are for reference only.
- (b). Due to product improvement, the following parameters may be changed and shall refer to the product nameplate parameters.
- (c). The applicable area is according to the theoretical value calculated by $(0.07 \sim 0.12) \times \text{CADR}$ particulate matter; with the use of different environments or outdoor pollution and other factors, the applicable area will also change.
- (d). Purifying principle: The air purifier blows air into the machine and filters the air through the built-in filter core. It can mainly play the role of filtering dust (such as PM_{2.5}), formaldehyde, odor, sterilization and others.

TECHNICAL PARAMETERS

Model	TAP-YD25FTH(W)
Rated voltage	24 V \equiv
Rated power	22 W
Detachable power supply unit	GM42-240150-D
Rated input voltage rang (power supply unit)	100 - 240 V \sim
Rated frequency (power supply unit)	50/60 Hz
Rated input current (power supply unit)	1.5 A
Rated output voltage (power supply unit)	24 V \equiv
Rated output current (power supply unit)	1.5 A
UVC Radiation	NO
Clean air delivery rate (CADR)	200 m ³ /hr
Applicable room area	24 m ²
Noise level	≤ 60 dB

IMPORTANT SAFETY INSTRUCTIONS

- Before operating the product, please read this manual thoroughly and fully understand the content (labels and icons), and ensure compliance with the safety precautions provided herein.
- This section outlines the attributes and importance of safety precautions to prevent personal injury or property damage.

Symbol	
 WARNING	WARNING: Indicates a risk of "severe injuries (*1)" or "death".
 CAUTION	CAUTION: Indicates a risk of "bodily harm (*2)" or "property damages (*3)"

- (*1) Severe injuries: Refers to bodily harm requiring hospitalization, long-term treatment, or resulting in blindness, severe burns, electric shock, fractures, poisoning, etc.
- (*2) Bodily harm: Refers to bodily harm that does not require hospitalization or long-term treatment, such as skin burns or electric shock.
- (*3) Property damages: Refers to long-term damage to buildings, furniture, livestock, or pets.

Symbol	
 Prohibited	 Prohibited: Indicates prohibited behavior. Detailed instructions will be provided inside the circle or around the symbol.
 Important	 Important: Indicates mandatory actions. Detailed instructions will be provided inside the circle or around the symbol using numbers or text.
 CAUTION	 CAUTION: Indicates recommended preventive measures. Detailed instructions will be provided inside the circle or around the symbol using numbers or text.

IMPORTANT SAFETY INSTRUCTIONS

WARNING

Read Rules for Safe Operation and Instructions Carefully.

- ❗ Indoor and household use only.
- ❗ When the appliance is not in use and before cleaning, unplug the appliance from the outlet.
- ❗ To protect against the risk of electrical shock, do not immerse the unit, cord or plug in water or other liquid.
- ⊘ Do not place other items on top of the appliance, and forbid sitting or standing on this appliance.
- ❗ Please use the original filter provided by the factory. In case of other filters, the best results cannot be achieved.
- ❗ Do not insert the fingers or objects into the air inlets or air outlets to prevent the product from physical damages or malfunction.
- ❗ Please unplug the power cord immediately and contact the service center in time when the appliance suffers abnormal sound or burnt smell of smoke.
- ❗ Do not spray flammable substances near the appliance; Do not spray water directly on the appliance or use chemical cleaners like alcohol or hydrochloric acid, etc.; Do not place water containers, medicines, or flammable materials on the appliance.

IMPORTANT SAFETY INSTRUCTIONS

- ❗ The maintenance instructions must be read before operating the electrical appliance.
- ⊘ Do not block the air inlets/outlets of the appliance with any item.
- ❗ This appliance cannot replace natural ventilation and other appliances like the vacuum cleaner, kitchen ventilator, etc.
- ❗ When the appliance is working, it must be placed on a dry, flat and stable floor, with at least 30cm space reserved around it.
- ⊘ Do not put it in a place with direct sunlight.
- ❗ To prevent electromagnetic disturbance, the appliance must keep a certain distance from the TV, radio, microwave oven and others.
- ❗ The mist produced by the ultrasonic humidifier may affect the PM2.5 detection of this appliance, and both should maintain a certain distance.
- ⊘ Do not disassemble or modify this appliance without authorization to avoid accidents.
- ⊘ Do not pull the adapter cable to move the appliance.
- ❗ **WARNING:** To reduce the risk of fire or electric shock, do not use this air purifier with any solid-state speed control device.

IMPORTANT SAFETY INSTRUCTIONS

- ❗ This product complies with the maximum allowable concentration of ozone of 0.050 parts per million by volume (ppmv) in a 24-hour period.
- ⊘ Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Do not route cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.
- ❗ Before cleaning or performing other maintenance, always disconnect the product from the main power supply.
- ❗ This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- ❗ Children should be supervised to ensure that they do not play with the appliance.
- ❗ If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- ❗ The product can only be powered by the power supply included with the product.

The pictures contained in the Manual are for reference only, and please be subject to the physical product in the packing box.

COMPONENT NAME

Host

Protective bag

Manual

Adapter cablet

INSTALLATION INSTRUCTIONS

INSTALLATION STEPS

- 1** Remove the base plate.

- 2** Take out the HEPA filter.

- 3** Remove the protective film of the filter assembly.

- 4** Install the HEPA filter.

INSTALLATION INSTRUCTIONS

5 Install the base plate.

6 Plug in adapter cable.

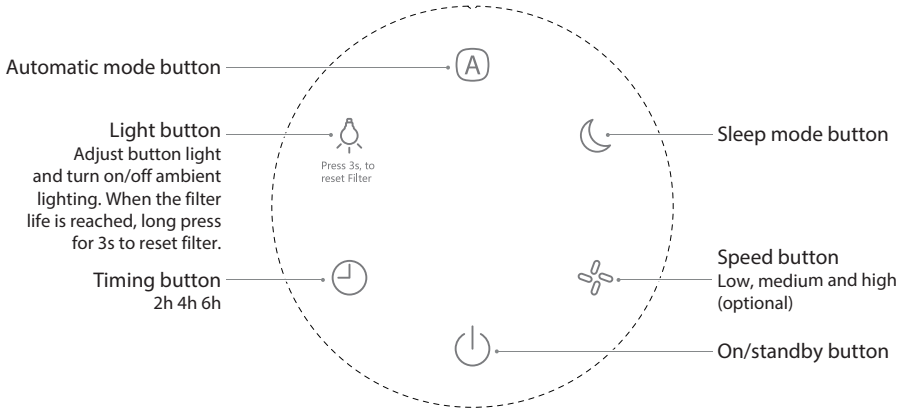

7 Plug power supply.

INSTRUCTIONS

CONTROL PANEL

DISPLAY PANEL

- Blue — Air quality Excellent;
- Green — Air quality Good;
- Orange — Air quality Medium;
- Red — Air quality Poor;

INSTRUCTIONS

NOTE

- In case of continuous electricity, enter the working mode before the standby state, after each power on.
- The appliance is connected to the power again after unexpected power outage (when the power is off or the power cord is unplugged during normal operation), and then restores to the working state before the power outage.

TEST RUN

- 1** Remove the protective film of the filter assembly.

- 2** Install the filter.

Preparation

- 3** Power on for the first time, the display panel flashes for 1s, and then the screen is turned off. The whole appliance is the standby state.

- 4** **On/standby**
Press on/standby button.

INSTRUCTIONS

Warm up

5

When the particulate matter sensor enters the warm-up state, Air quality indicator and is normal after 3s light will flash in sequence.

Air quality
indicator

Work

6

The purifier is powered on for the first time and then enters the automatic mode.

CLEANING AND MAINTENANCE

NOTE

Be sure to turn it off before any maintenance, and cut off power.

BODY CLEANING

Host

Wipe the body with a soft towel.

Inside the machine housing

Open the base plate, vacuum up dust with a vacuum cleaner or wipe it with a cloth.

Air outlet grille

Vacuum up dust with a vacuum cleaner or wipe it with a cloth.

CLEANING AND MAINTENANCE

CLEANING OF THE HEPA-FILTER

It is recommended to clean the HEPA-filter at least once every two weeks. The cleaning cycle can be based on the usage environment and time, seriously polluted environment should be cleaned frequently.

1 Unplug the appliance, and take out the HEPA-filter.

2 Vacuum the dust or wipe it with a dry cloth or vacuum.

3 Assemble the HEPA-filter.

4 Plug in the appliance, and start it.

REPLACEMENT OF THE FILTER COMPONENTS

1 Filter (include 1)

2 When the filter replacement light is on, it reminds that the HEPA filter should be replaced. If it is not replaced in time, the prompt will appear every startup.

CLEANING AND MAINTENANCE

3 Replace a new filter.

4 Long press light button for 3s, reset the HEPA filter.

Long press for 3s

According to Waste of Electrical and Electronic Equipment (WEEE) directive. WEEE should be separately collected and treated. It at any time in future you need to dispose of this product please do NOT dispose of this product with household waste. Please send this product to WEEE collecting points where available.
